What has inspired you to make decision to join White Collar Realty	I'm inspired to join White Collar Realty as an AI Intern because I want to apply my AI and technical skills to real-world business problems. The real estate industry has a lot of opportunities for AI in areas like lead analysis, customer insights, automation, and personalized recommendations. I'm particularly interested in learning how AI can improve business processes and customer experience. I also see this internship as a great opportunity to work with an experienced team, learn from real projects, and contribute while developing my skills professionally
How long you are willing to be associated	I'm looking for a long-term association. I'm willing to stay and grow with the company as long as I'm learning, contributing, and getting opportunities to take on new responsibilities. I would be happy to continue with White Collar Realty beyond the internship if there is an opportunity for a full-time role
Long Term Goal	My long-term goal is to build a strong career in AI and Machine Learning by working on real-world business problems. I want to continuously improve my technical and problem-solving skills, take on more responsibilities, and eventually become an AI/ML professional who can contribute to the company's growth through practical AI solutions
Short Term Goal	My short-term goal is to gain practical industry experience, strengthen my AI and technical skills, and contribute to real-world projects. I also want to learn from experienced professionals and become a valuable member of the team
